Assignment:

The web application contains three main pages; [index.html](#), [about.html](#) and [service.html](#), and by clicking on each link on the top right of the application you will be able to navigate between pages and the color on link turns into orange.

The index.html has 5 main parts such as header (branding and nav), three sections (showcase, newsletter and boxes) and footer.

The about.html and service.html have 4 main parts such as header (branding and nav), two sections (newsletter and boxes) and footer.

You could choose between div and semantic elements such as section, aside, article and

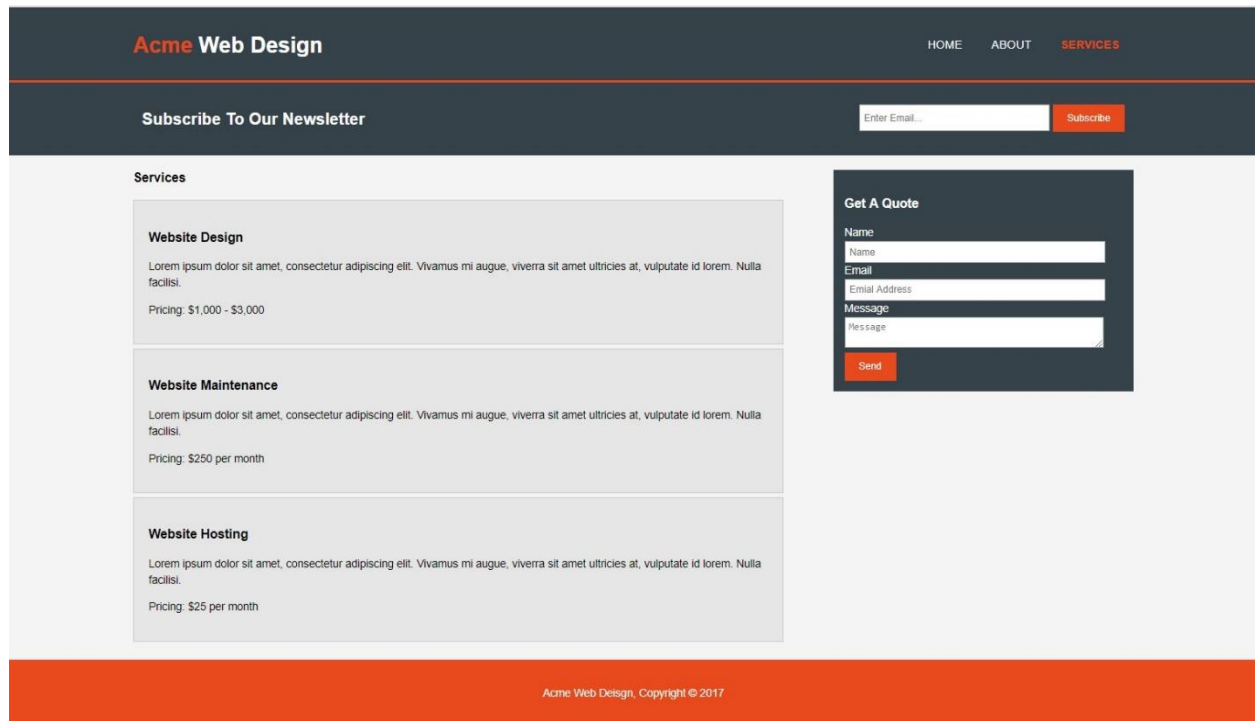

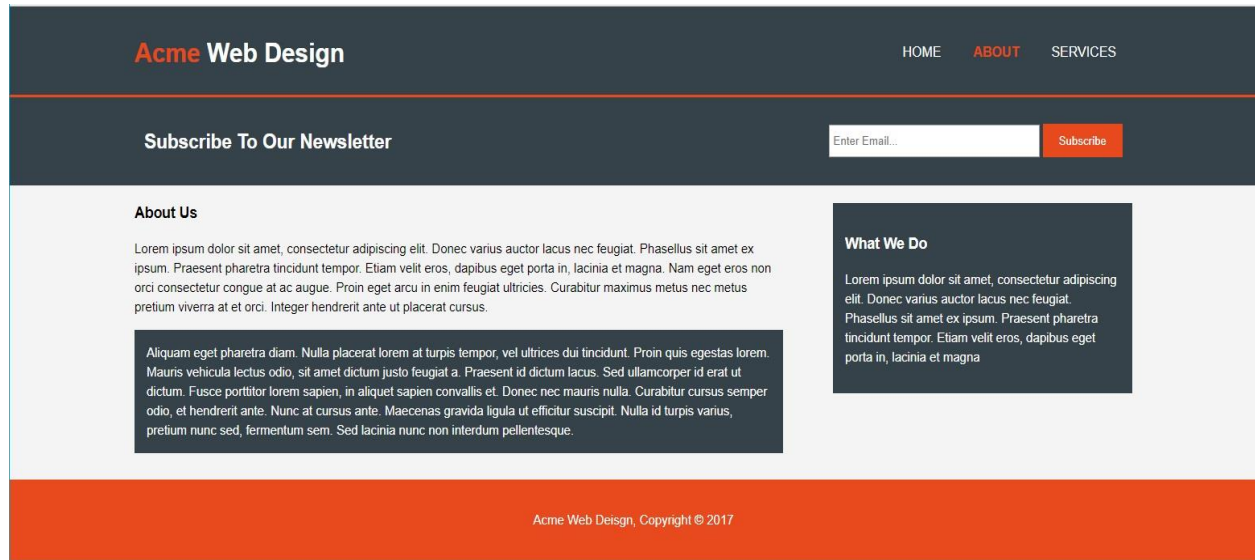

As I mentioned in class, the deadline is on February 18, 2018 at 23:55.

You will receive the source code on Monday 19-Feb-2018.
